—H. H. Boetjer, the Union depot news agent, slapped the face of Henry Drexel's boy yesterday and Drexel went down to the depot and slapped Boetjer's face. In this manner the time was passed away pleasantly.

—There is going to be a sensation in the West End one of these days. A married man is watching the actions of a near neighbor with a shotgun. The Bazoos have two reporters detailed to keep a strict watch on the proceedings.

## A Villainous Assault.

Mrs. Tangley, a white woman, and George Givens, a negro, were arrested yesterday afternoon by Deputy Constable Drake upon a warrant issued by Justice Halstead, charging them with assault and battery upon the person of a little boy named Charley Jackson. They were released on recognizance to appear Monday morning at ten o'clock for trial.

Mrs. Tangley is a vicious white woman who lives with colored people north of the tracks and west of the gas works. She became enraged at the boy and the negro Givens caught and held him while the woman pounded him on the head with a rock, inflicting several severe cuts.

## A Bad Crossing.

Complaints have been made to the BAZOO in regard to a bad crossing at Massachusetts street and Broadway. It is claimed that there is, in fact, a crossing there, but that there are about two feet of mud on top of it. It is said that nature provides for all conditions, and if that is true, we may confidently expect to hear of the babies that are hereafter born in that part of town being provided with wet feet.

## Nuptial Knots.

Alfred L. Auspaugh and Dora B. Fowler, both of this city, went to Recorder Landmann yesterday morning and secured a license to wed. They then repaired to Judge Bailey's office at the other end of the court house and that worthy official made them man and wife in the presence of a few intimate friends of the happy pair. The groom is a baker at Hotel Slicher.

## POLITICIANS IN CAHOOT.

A Number of Leading Republicans of the Sixth District in Secret Session.

The Object of Which is to Form Out the Postoffice in this Section of the State.

Ed. Crawford of the Sentinel to be Sedalia's Next Postmaster.

For two days there have been a number of leading republican politicians of the Sixth congressional district in secret conference in this city, the object of which is to make a satisfactory distribution of federal patronage among the "truly loil" in this bailiwick. A BAZOO detective scented the matter yesterday and started on the trail. The place of holding the secret caucuses has been kept secret, and only a few faithful republicans here have let into the doings of the confere. There are now in the city the following well-known republicans: Hon. J. B. Upton, of Bolivar; J. J. Smith, of Sater; J. C. Poringey, of Marshall; "Bud" Hastain, of Warsaw; Editor Redman, of the Boonville Republican, and several other prominent radicals. These men are here for the purpose of naming the postmasters in this congressional district, and the selections made here to-day or to-morrow, will be endorsed at Washington.

It is a candid fact that Joe Upton carries the patronage of this district in his hip pocket. He has been the congressional standard bearer in the last campaign and is avowed by the republican delegation in congress from Missouri.

Farmer Wade and the three republican representatives-elect from St. Louis have agreed that what Joe says about postoffices in this district "goes." The man that yearns to lick stamps in the Sedalia postoffice must stand in with Joe, or his name is Dennis in box-car letters. Joe Upton is not inclined to play Boss Filley, however. He is a pretty square man Joe is, and so he called the council, which is in session here to-day, for the purpose of receiving applications and listening to advice. When the testimony is all in, Joe will make his selections for every prominent postoffice in the district. He will stick the list in his pistol pocket and go to Washington, and every mother's son of the fellows whose names are on that list, will be postmasters.

Mr. Upton informed a BAZOO reporter last night that he would be in Sedalia until Sunday. When asked what he was doing here, he smiled in that Polk county sort of way peculiar to himself and Dan Stratton and replied:

"I'm going to pick out a new postmaster for Sedalia."

And that was the end of the interview. When the conference was adjourned to-day, one thing was settled, and that was that Mr. E. D. Crawford, the editor and proprietor of the Sedalia Sentinel will be the next postmaster in Sedalia. An effort was made to keep the matter quiet, but by 3 o'clock this afternoon it was town talk.

## AN OLD TIMER.

W. J. Wyan, of Bell Air, Added to the List of Veterans.

In response to the BAZOO's call for "old timers" to stand up and be counted, Mr. W. J. Wyan, of Bell Air, writes as follows:

"In response to a call for a reunion of Missourians who have been here sixty years and longer, several such live in this neighborhood, and I am one of them. I was born in Boonville, Cooper county, on the eighth day of June, 1825, and will soon be sixty-four years old. I married Miss Kate Menefee, daughter of Judge H. R. Menefee, on the seventeenth day August, 1847. I will send you a list of the 'old timers' in this vicinity, soon. Yours truly, W. J. WYAN."

Mr. Wyan is in good health, and is engaged in the general mercantile business at Bell Air, the name of the firm being W. J. Wyan & Son.

## DEATH'S DOINGS.

Mrs. Sadie F. McClellan Called to Her Long Home This Morning.

The entire community was shocked to-day when it was announced that Mrs. Sadie F. McClellan, wife of Mr. E. E. McClellan, the well-known book seller, had departed this life at about 3:30 o'clock this morning. Mrs. McClellan was one of the best known ladies in Central Missouri and her friends were many. She was formerly Miss Castle, of this county, and was married to Mr. E. E. McClellan nine years ago last November, and has since resided here. Her death was due to puerperal fever, and she left one child, a wee babe, only a week old.

Her death was a serene one and her dying testimony was sublimely beautiful with the faith of the immortal life beyond the stars. In the most minute particular she conveyed her wishes to those about her, and even while the dew of death gathered upon her brow and the film of mortality veiled her eyes, she still showed a self sacrifice and love for the relatives and friends who watched beside her.

She was a consistent member of the Congregational church and worked untiringly in the cause of the Master wherever she saw an opportunity for such work.

She leaves beside her child, a devoted husband, mother and five brothers, beside other relatives, to mourn her loss. The funeral services will take place at the Congregational church next Sunday afternoon, Rev. Boller officiating.

A special song service will be rendered by the choir, of which Mrs. McClellan was a member, and the following have been selected as the pall bearers, Messrs. William Crawford, Hardy L. Berry, J. L. Holloway, Lou and Will Van Wagner and C. T. Minter.

## IMMIGRATION.

The People and Legislature of Missouri Waking up to Its Importance.

A Real Estate and Mining Convention to be Held at Sedalia on the 20th of March.

The state of Missouri is attracting a degree of attention at the present time that she has never done before. Her vast and varied resources are being considered, discussed and investigated by capitalists and investors as they have never been before. This, in a large measure, is attributable to the well directed and persistent efforts of the Southwest Missouri Immigration society. That organization has carried the name and fame of Missouri and her attractions of soil climate, agricultural and horticultural resources, mines, forests, streams, fisheries and all her long catalogue of favorable conditions for the highest physical and intellectual development of conducting his highest degree of personal comfort and happiness to every home in the densely populated state and cities.

The effects of this work are now so pronounced that various other quarters of the state have caught the inspiration from us and are now agitating the question of organizing immigration and improvement societies. The state legislature has also caught the inspiration, or rather it has been compelled to recognize the clamor for state recognition of this work, and measures are now pending in the state legislature to establish a department of immigration.

These measures have the hearty support of Missouri's young and progressive government, and ere long we may expect to see the grand old commonwealth of Missouri taking the lead in the march of progress. But let us not stop here. We are inviting people into Missouri to stay, and when they arrive, we want to entertain them as becomes citizens of a great state. The real estate and mining convention called to meet at Sedalia on March 20th next, has in view this very object—to organize so that we may better show the people what we have, and better induce capitalists to come and live among us. Let every county in Central Missouri send a delegate to this convention and work for the interests of our grand old state, and in less than six months many will be knocking at our doors for admittance.

For any further information in reference to the convention, address, R. C. SNEED, Sedalia, Mo.

## Died.

The two-weeks-old child of Mr. and Mrs. Walter Butler, living at 223 Boonville street died last night and was buried this afternoon.

Written for the BAZOO, Mersing BAZOO.

## THE ANSWER.

You ask me why I love you so,  
I cannot tell I only know—  
I love you.  
Just as the lily loves the dew  
When stars begirt God's span of blue—  
I love you.  
Just as the wild rose newly 'gun  
Expands and loves the kiss of sun—  
I love you.  
Just as the eagle loves its nest  
Upon the far free mountain crest—  
I love you.  
Just as the heart which hurt and sad  
Loves that which heals and makes it glad—  
I love you.  
Can love explain on sweeter strings?  
Then hear, for lo! a thousand things—  
I love you.  
—ROSA PEARL.
